GENE LEE

I am a junior web developer with 3+ years of experience developing user interfaces, debugging code, testing, and managing websites. I am a quick learner, and am looking forward to learning new programs and skills throughout my career.

WORK EXPERIENCE

Entry Level Software Engineer   05/2018 – present
Dulles Glass & Mirror, Manassas, United States

- Developed and maintained multiple ecommerce websites in both the frontend and backend using ASP .NET MVC Framework
- Updated database and managed inventory
- Implemented key new features into the websites and fixed bugs
- Updated websites to a new mobile responsive design
- Managed the company's Amazon seller central account

Software and Test Engineer Intern   12/2016 – 05/2018
Dulles Glass & Mirror, Faifax, United States

- Implemented front-end code (web design) for multiple ecommerce websites/applications as a web developer.
- Worked with the ASP.NET framework, C#, and Amazon Web Services (DynamoDB, S3). Tested software for web applications.
- Experience working and cooperating with a team, managing inventory, and developing in both front and back end.
- Worked closely with senior developer and trained under him

Programmer & Level Designer   08/2017 – 05/2018
Computer Game Design Senior Capstone, Fairfax, United States

- Worked on a unique game experience in a team of 3, for a year-long project.
- Managed and developed the game concept and mechanics from start to finish.
- Developed on the Unity 3Dgame engine with C#, using models made in 3DS Max and Autodesk Maya.
